01 Objective

Seeking to make the web more accessible through a part-time position in the field of usability or experience design.

02 Skills

Languages: XHTML, CSS, Javascript (jQuery), PHP, MySQL, XML, C++, Java, Visual Basic.

Software: Photoshop, Dreamweaver, Fireworks, InDesign, Illustrator, Premiere, Audition, Morae.

Techniques: Wireframing, Information Architecture, Interface Analysis, Usability Testing, Card Sorts

03 Education

B.A. Digital Media Arts and Media Management

Duquesne University, Pittsburgh PA, 2011

GPA: 3.9

Relevant coursework includes web design, interface design, serverside scripting, and client-side scripting courses. Hobbies include creating new websites for nearly every media-related organization on campus and masquerading as a music school student.

04 Work Experience

Allegheny Graphics, Kittanning, PA

Web Design Intern (Summer 2010)

Reported to Lead Developer. Updated existing sites, mocked up new designs, and developed internal PHP projects and CMS prototypes.

WDSR, Duquesne University, Pittsburgh, PA

Productions Manager/Webmaster (July 2008 – Present)

Reporting to Station Manager. Designed and maintained the website, managed station servers, provided technical support to listeners, and maintained DJ equipment.

Freelance Web Design, self-employed

(2008 - Present)

Projects include designing interfaces, logos, and full websites, as well as developing content management systems and server management for clients such as:

- WPA Bruins Basketball
- The Duquesne Duke newspaper
- Lexicon Journal
- YourCheapLand real estate
- Holy Sepulcher school
